

Production Access Questionnaire

Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

App Name: Kala Nera Guide

App URL: <https://play.google.com/store/apps/details?id=com.kalanera.app>

Production Access Questionnaire

1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?

We used a paid testing provider to obtain comprehensive and detailed feedback on the app. Additionally, we reached out to some of our target users—local residents and visitors—to gather real-world insights from the intended audience.

2) How easy was it to recruit testers for your app?

Answer: Easy

(You can select your own answer).

3) Describe the engagement you received from testers during your closed test

Testers actively engaged by providing valuable feedback on app usability, feature enhancements, and overall user experience. Their insights prompted

us to prioritize improvements, ensuring a more user-friendly interface and better functionality, which increased overall satisfaction.

4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.

Testers highlighted the need for ASO optimization, a dynamic walkthrough for new users, improved app screenshots, and a "Rate Your App" button. Feedback was collected through surveys, direct communication, and usability sessions, allowing us to refine the app effectively.

5) Who is the intended audience for your app?

Kala Nera Guide is designed for locals and tourists in Kala Nera, Pelion, Greece, seeking to discover nearby businesses and services. It caters to anyone looking for dining, accommodation, shopping, and local services, enhancing their experience in the area.

6) Describe how your app provides value to the users.

Kala Nera Guide offers a curated business directory, bus timetable, and local contact numbers, making it easy for users to find essential services. With

offline access and favorite-saving capabilities, the app enhances convenience and helps users navigate the area efficiently.

7) How many installs do you expect your app to have in your first year?

Answer: 10k - 100k

(You can select your own answer).

8) What changes did you make to your app based on what you learned during your closed test?

We optimized the app description for better ASO, added a dynamic walkthrough for new users, improved app screenshots to highlight features, and introduced a "Rate Your App" button in settings, significantly enhancing user experience and engagement.

9) How did you decide that your app is ready for production?

After thorough testing and incorporating critical feedback from diverse testers, we ensured the app is stable, user-friendly, and fully optimized. The enhancements made position the app well for successful deployment on Google Play, meeting user expectations.

10) What did you do differently this time?

This time, we focused on gathering targeted feedback from local users to refine features, emphasized ASO strategies, and prioritized user onboarding. These efforts resulted in a more polished app that effectively meets the needs of our audience and is ready for production.

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

**Best regards,
Testers Community Team**
